

**YCCSC 2021 Agency Management Accomplishments (090)
Submitted into Egov**

#1 Describe up to three notable management accomplishments achieved by the agency during the reporting year (2021). Describe how responsible, informed leadership and effective, efficient processes led to high-quality, accessible, and well-managed services and strategies.

- 1) Yuba County Community Services Commission (YCCSC) sub-grantee, Habitat for Humanity, reported the following:

Habitat for Humanity recognized that they had incomplete data/difficulty attaining specific data details across projects, customer surveys were not capturing enough successful outcomes that were taking place and workload was exceeding staff capacity.

In 2021, Habitat was able to expand staff with an additional 13 team members to ensure workload was manageable and their client's needs were met in a timely fashion.

To address the need for better data tracking between departments and better communication, they created a change to their management meetings with each department and a universal cloud-based storage to ease data sharing and requests. They also created new data files with specific tables and data validation to easily access specific demographic numbers and outcomes and created new customer surveys to capture more information on successful outcomes for each household. (I.E. Children doing better in school, workplace advancement, etc.)

The Administration team also provided continuing education to all staff on sensitivity trainings when engaging with the vulnerable population to ensure no unintended harm is caused, as well as courses in racial disparities and equity.

- 2) Yuba County Community Services Commission sub-grantee, Sutter Yuba Homeless Consortium--REST reported the following:

Regional Emergency Shelter Team (REST) adopted an innovative approach to better serve low-income community members experiencing homelessness. REST decided to modify the shelter intake process to make the shelter more accessible to those in need. For the past several years, REST has administered a drug test to new prospective clients. REST abolished this policy in 2021 in the interest of removing a barrier to shelter entry. Rather than barring clients from accessing the shelter for failing a drug test, REST used a behavior-based model, meaning clients were allowed to enter and remain in the shelter as long as their behavior was respectful and safe to the others at the shelter. The results were positive. Not only was the intake process less intimidating and less restrictive to new clients, but REST did not have an appreciable increase in problematic behaviors at the shelter even after doing away with drug testing. As REST enters a new winter season, it is moving forward with this housing first, behavior-based model to keep its shelter accessible to those in need.

#2 Provide up to three examples of ways in which the agency addressed a cause or condition of poverty in the community using an innovative or creative approach. List the following headers with your response:

- Program name
- Description of program (capacity, duration, targeted population, etc)
- How innovative/creative? Please be specific.
- Local partners involved. Name each partner and what they provided
- Outcomes achieved (include the number of people enrolled and areas affected), and
- How CSBG funds were used to support implementation

Agency Name/Program: Yuba County Community Services Commission sub-grantee, Sutter Yuba Homeless Consortium--Adventist Health, Street Nurse/Medicine Program

CSBG Service category: Health & social/behavioral development

Description of Program: The Street Nurse Program provides Street Nursing, Social Work Case Management, and Housing Navigation to individuals experiencing homelessness in the Yuba-Sutter area. The Street Nursing program provides services to individuals experiencing homelessness on the streets, in the local shelters, and in the coordinated entry sites. The team hosts a clinic three days a week where the team sees and treats patients, and spends the other two days a week conducting street outreach in the local parks, encampments, and areas in which the individuals experiencing homelessness congregate. A typical encounter in the clinic consists of a nursing assessment, a case management assessment, referrals to local resources including community resources and primary care physicians (PCP), as well as tele-health physician visit if necessary for health needs. A typical encounter in the streets consists of basic assessment, relationship building, and encouragement to enroll in local resources.

How innovate/creative: The program brings nursing and doctor care out to individuals experiencing homelessness and meeting them where they are. This program is not duplicated in our community and is not a common supported practice in other communities. They bring healthcare directly to a population that has limited access to healthcare and significant health concerns.

Outcomes achieved:

- 381 unique clients served
- 2,561 client follow ups
- 533 outreach visits conducted (no client info collected at this time, relationship building, resource giving)
- 140 medications paid for
- 56 established care with a primary care doctor
- 524 were provided food and food resources
- 54 completed housing applications
- 35 physician appointments were attended with the client
- 43 permanently housed
- 157 temporarily housed
- 314 tele-doctor visits
- 319 provided with transportation

How CSBG funds were used: With this funding they were able to double their street outreach capacity by adding an additional street nurse to their street medicine team. With the additional nurse they were able to see more clients and serve more individuals where they were. They doubled their service area by going into more places where homeless frequent including shelters and also by having a nurse available for specific street outreach in the streets and riverbeds. They have also been able to increase their presence with local partners to assist their clients.

Local Partners involved and how contributed:

The Street Nursing program partners with the local Continuum of Care (CoC), a local non-profit of organizations, volunteers, law enforcement, and other community-based coalitions to improve the overall health and well-being of individuals experiencing homelessness.

- Coordinated Entry including Life Building Center and Hands of Hope – clinics and shelter
- The Salvation Army including the Depot -- shelter
- 14 Forward Shelter – clinics and shelter
- Better Ways Shelter – clinics and shelter

- Life Building Center Shelter-- clinic and shelter
- H.E.A.R.T. Behavioral Health – outreach
- R.E.S.T. --Winter overnight shelter
- Local Law enforcement -outreach assistance
- Yuba Sutter Food Bank-- food

#3 Provide up to three examples of changes made by the agency in 2021 to improve service delivery and enhance impact for individuals, families, and communities with low incomes based on their in-depth analysis of performance data. Include if your agency added any new services/programs and if so, what and when. List the following headers with your response:

- **Problem**
- **What analyze to discover problem (client survey results, conversations with clients, staff input)**
- **Change made**

- 1) Yuba County Community Services Commission sub-grantee, Sutter Yuba Homeless Consortium-Bridges to Housing, reported the following:

Problem: Yuba County residents were having difficulty accessing Bridges to Housing due to its location only in Sutter County.

In-depth analysis of performance data: Client surveys and requests indicated a need to have a physical presence in Yuba County for ease of access for services and because much of the permanent housing found for the clients was located in Yuba County.

Changes made: partnered with Habitat for Humanity to be able use space in their building to open a new Marysville office (Yuba County) that puts them in close proximity to people who visit Habitat for Humanity seeking rental assistance, to homeless people from the Life Building Center and to Yuba County residents in general. Clients can now walk in and/or call either location for appointments and information and assistance in the process of housing. Interviews are held at both locations.

- 2) Yuba County Community Services Commission sub-grantee, Sutter Yuba Homeless Consortium – Bridges to Housing reported the following:

Problem: In 2021, the pandemic exacerbated the local housing crisis and placed greater demands on Bridges to Housing clients due to increased rental deposits, rent, utilities and other housing costs. This problem was also worsened by the client’s limitations in doing computer searches and follow through.

In-depth analysis of performance data: The Board took on the task of exploring the needs of the community to determine how they could best serve more people in the most meaningful way. Following conversations between clients, staff and Board members over a period of months, the Board decided to expand their services and staff as much as possible with available grant monies.

Changes made: Bridges to Housing’s primary mission and function was to fund rental security deposits. The Board decided to expand services to help with rent payments and utility payments in addition to security deposits to be able to further prevent homelessness. They also added a Housing Navigator to their organization, which has allowed a more dedicated effort to locate housing for clients as well as assist clients with access to computers for research of rentals, filling out necessary applications, document request forms, and referrals.
