

## E Center

E Center had many success stories with our intern program in 2021. The one that stands out above the rest is an intern named Mayra C.

Mayra C was able to utilize an internship at our Live Oak location. Upon completion of her internship she was able to secure FT employment with E Center. I have checked with her new supervisor and she seems to be flourishing in her new role as a teacher assistant at one of our largest centers in the Yuba Sutter region. We are expecting a long and satisfying career for Mayra C. at E Center.
