

Hands of Hope, serving those most in need
2022

Meet David and Meleana, they began experiencing homelessness in 2018. They struggled with the fact that their income did not allow them to afford any local residence. After becoming clients at Life Building Center, they began to address the issues that brought them to homelessness. After years of being homeless they were finally accepted into the Prosperity Village Permanent Housing Project ran by Habitat for Humanity.

They continue to thrive and have started to give back to their community by coming back to Life Building Center and volunteering. They would like people to know that "...we had nowhere to go, and Hands of Hope was there for us. We wouldn't be where we are today without their dedication and commitment to serving those in the most need'.

We are happy and proud of David and Meleana and look forward to seeing what they do in the future.
